

## Condensatori elettrolitici

### STANDARD SERIE SEA 22UF 50V Ø6.3X7MM IN REEL

COND SEA 22uF 50V 2.5NS 6.3x7 #

Codice Adimpex: **CI022050-R**

P/N: **SEA220M1HSA-0607**

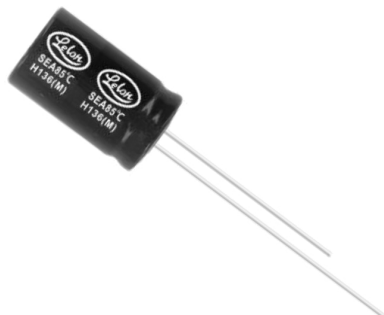

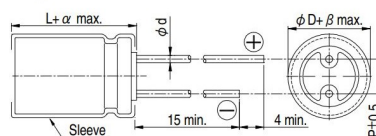

Diagram of Dimensions

| Lead Spacing and Diameter |      |     |     |     | Unit: mm |
|---------------------------|------|-----|-----|-----|----------|
| φ D                       | 4    | 5   | 6.3 | 8   | 10       |
| P                         | 1.5  | 2.0 | 2.5 | 3.5 | 5.0      |
| φ d                       | 0.45 |     | 0.5 |     | 0.6      |
| α                         |      |     | 1.0 |     | 1.5      |
| β                         |      |     | 0.5 |     |          |

## Caratteristiche Tecniche:

|                               |                |
|-------------------------------|----------------|
| Passo:                        | 2.5 mm         |
| Capacità (μF):                | 22             |
| Tensione:                     | 50 V           |
| Dimensione elettrolitici PTH: | 6.3x7          |
| Temperatura e cicli vita:     | 85°C - 2000Hrs |
| Montaggio:                    | PTH            |
| Tipologia:                    | Standard       |
