## POWER LED PLCC2 0.3W BIANCO (6500K) TYP. 8594MCD 120°

HL-AM-2835H421W-S1-08-HR3 8.5C 120° C BIA(6500K)\*

Codice Adimpex: **OFA59550-R**

P/N: **HL-AM-2835H421W-S1-08-HR3**

### Caratteristiche Tecniche:

|                                  |                   |
|----------------------------------|-------------------|
| Corrente Led (mA):               | > 20              |
| Intensità luminosa tipica (mcd): | >5001             |
| Angolo visivo:                   | 120 °             |
| Colore:                          | Bianco neutral    |
| Dome Lens:                       | No                |
| Alimentazione reverse:           | No                |
| Case SMD:                        | PLCC2 (3.5x2.8mm) |
| Gamma:                           | Power Led         |
| Montaggio:                       | SMD               |
| Tipo lente:                      | Water clear       |
