

Led

**LED 0805 GIALLO (588NM) TYP. 8MCD 120°**

KPT-2012YC 0805 8MCD 120° GIA(588nm)

Codice Adimpex: **OH201443-R**

P/N: **KPT-2012YC**

**Caratteristiche Tecniche:**

|                                  |                 |
|----------------------------------|-----------------|
| Corrente Led (mA):               | > 20            |
| Intensità luminosa tipica (mcd): | 0-100           |
| Case SMD:                        | 0805 (2x1.25mm) |
| Angolo visivo:                   | 120 °           |
| Lunghezza d'onda(nm):            | 588             |
| Colore:                          | Giallo          |
| Gamma:                           | Led             |
| Dome Lens:                       | No              |
| Alimentazione reverse:           | No              |
| Montaggio:                       | SMD             |
| Tipo lente:                      | Water clear     |
